

# FAITH TREE

Trace your hand several times on a piece of paper, and then cut out the tracings. Have each member of the family do this so that there are a variety of sizes. On each handprint, write something you can do to grow your faith. Then print the tree trunk below. Glue the handprints to the tree trunk so that they look like leaves (see example to the right). Liken this to Alma's teachings in Alma 32. Point out that the handprints symbolize the work we have to put into making faith grow.
